Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Dear NDLI Club Member,

As you may know, AICTE and UGC have made it mandatory to fill the NDLI Club Registration Number in the annual application form. Also, we have migrated our NDLI Club registration to a new platform. In this regard, we request all our existing NDLI Clubs to complete the NDLI Club registration in the new portal and get the new NDLI Club Registration Number by 31st March, 2021.

A detailed presentation to register NDLI Club is enclosed here. I am also furnishing the step-wise process to register your NDLI Club below:

Step 1: Register and verify the eMails of 4 key NDLI Club authorities <https://ndl.iitkgp.ac.in/> (1. Patraon - Head of the Institution, 2. President - Faculty/ Librarian/ NSS Coordinator, 3. Secretary - Faculty/ Librarian, 4. Executive Member - Faculty/ Student/ Researcher)

Step 2: After registration and verification of 4 key members, you are requested to visit the new NDLI Club portal from here: <https://club.ndl.iitkgp.ac.in>

Step 3: We request you to click on the **Club Registration** tab available on the top bar.

Step 4: Login with one of the key members username and password

Step 5: Search institute name "For ex. PSGR Krishnammal College for Women" or AICTE ID/ UGC ID/ NBA ID or NDLI Club old Regn. No. "INTN00007". In case your institute name is unavailable, choose Other and enter your institute details

Step 6: Fill or Edit the basic details about your institute and Click Save

Step 7: Fill the 4 Key NDLI Club Authority Details and Click Save

Step 8: Generate Letter and then get it signed by the Head of the Institution and stamp it

Step 9: Upload the signed and stamped letter

Step 10: Authorities need to verify their NDLI Club emails either by clicking on the email received or by logging-in to the Club Registration page

Step 11: Freeze and submit the application

Step 12: We will verify and approve your NDLI Club

Step 13: On approval of NDLI Club, we will send you a Welcome eMail with a unique Passkey

Step 14: Using this unique Passkey, you are requested to register each faculty and student on NDLI and NDLI Club from here: <https://club.ndl.iitkgp.ac.in/sign-up>

Hello, ma'am!

As requested by you, I would like to participate in the interaction session to guide the students on the right path towards getting a job as a Software Developer.

I would like to touch on the following points during the session:

0. Tell them about myself and a short introduction about my journey
1. Understand what is their current perception of how to get hired.
2. Understand their skill level and interest in software development
3. Understand their achievements and training that they have taken
4. Tell them a step-by-step breakdown of what is important and how to get companies to hire them
5. Show them how to participate in coding challenges and introduce them to the world of competitive programming
6. Help them solve a few problems.
7. Tell them about Smart Interviews and how we're helping a lot of students achieve their goals

Few additional points as part of that:

1. I would require about 90 minutes on the whole for my points.
2. I can host the session over Zoom if required.
3. Preferred timings will be 6 PM-7:30 PM on Friday, 21st May 2021

Please feel free to suggest any alterations as required by you.

Thank you.

I am a 2018 graduate of MCET

I started my first company BURN in the first year of engineering, providing branding and event management services. (2014-2016) My company also organized the prestigious Hyderabad Model United Nations conference with 300+ delegates from all over the country.

When I was in my third year, I took workshops on Graphic design and web development using PHP in MCET.

In my final year, I competed in regionals in ACM-ICPC (International Collegiate Programming Contest) which is akin to Olympics for competitive programming.

I received job offers from several companies including DBS Bank and Amazon for Software Development roles. DBS Bank offer was 6.8 LPA and Amazon extended a CTC of 18.5LPA + 10L in stock.

I am now the CTO of Smart Interviews, an ed-tech company based out of Hyderabad. I trained 2000+ students on problem-solving for interviews to help them get placements in top tech companies. Several of my students are now working in companies like Adobe, Amazon, Flipkart, Microsoft, etc.

Subject: Feedback of the session

To: <erukullashailaja@gmail.com>

The students were responding very well. The overall cooperation from their side is good. There were 1 or 2 students who tried to make some nuisance but they were quickly removed from the session saving everyone's time.

I think the students lack exposure and guidance on interview preparation. The audience consisted primarily of 2nd and 3rd years. As per their responses, I have only understood that they have never looked at programming as a way to solve problems. It was a bit difficult to get everyone on the same page, but about 5-10 students were following everything I was saying.

Thank you for arranging this event as it will greatly benefit the college if the students take action on it. I hope more such practical sessions are organized with different speakers from different domains so that the students understand their way forward towards a successful career.

Thank you,
Surya Abhishek

Department of CSE About the event

The event is organised for the U.G students to share knowledge about the various programming strategies, Design and analysis of algorithms ,dynamic programming etc.The hands on with real time examples help a students lot to understand how to solve some of the problems in Leetcode like Hackerrank and Hackerearth. The session is interactive and useful for the coding problems.

Subject: Request for Webinar: India-The Rise of Electric Vehicles-reg.

Dear Sir,

We are pleased to introduce ourselves that Methodist College of Engineering and Technology is established in the year 2008, situated in the heart of the Hyderabad city to promote engineering education to both urban and rural students. The college is approved by AICTE, New Delhi and affiliated to Osmania University. The department of electrical engineering is offering undergraduate course B.E. with an intake of 60. The department believes in "learning by doing" and gives utmost importance to practical exposure to the students in understanding the concepts and principles of engineering. This can be achieved only with mutual collaboration and cooperation between the institute and industry.

In tune with this the Department of Electrical Engineering is organizing, A Five-Day Webinar on India-The Rise of Electric Vehicles schedule on 25th-29th, May 2021. In this regard we request you to address the participants with your knowledge and skill at esteemed organization. Your session will start on 25, May which is on Tuesday from 10am to 11:30am immediately after the inaugural function.

Hope you will accept our invitation for the benefit of ongoing engineering students.

ELECTRIC VEHICLE

- RECHARGEABLE BATTERY: provides energy to the electric motor.
- PLUS
- ELECTRIC MOTOR/GENERATOR: converts stored energy into electricity to power the vehicle. When acting as a generator, it provides energy to the battery to recharging while driving.
- CONTROLLER: regulates the amount of power to the electric motor from the battery.

PLUG-IN HYBRID VEHICLE

- TANK
- REGENERATIVE BRAKES: captures energy when braking to recharge the battery.
- COMBINATION ENGINE: uses conventional fuel to power the vehicle.
