Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

Summary:

According to the job role, verbal reasoning tests are used by some recruiters to find out the potential of a candidate and their learning capabilities from their past work experiences. These may be less complicated in some cases but may also increase in difficulty depending on the management level of the job you have applied for. In a less complicated verbal reasoning test, you may be asked to complete various sentences and analogies that employees commonly use in a work environment.

On the other hand, the complex ones may include reading and comprehending a piece of text or information provided, thinking about the information on logical grounds, drawing conclusions accurately, and finally conveying the results to others in an understandable yet professional manner. These are some common activities generally expected of the employees working in a business organization that need to be done in an effective and professional manner.

Below are some basic attributes that recruiters may evaluate in candidates through appointing a verbal reasoning test. Moreover, they may put as much significance on this one as they usually do in numerical reasoning tests.

- Students ability to pin-point issues from business manuals and company reports, and logically come up with conclusions as to how these may be taken care of or eliminated.
- Students ability to work on business reports, collateral and documents that are easily understandable at all levels.
- Students ability to convey and articulate any problems in the organization or its processes in order to bring it to the concerned committee.
- Students ability to decide how positively an issue may be resolved or the possible solutions at hand.

Finally, both numerical reasoning and verbal reasoning tests may provide some useful insights into your professional competency to determine the likelihood of hiring you for the vacant job position you have applied for. Candidates who are not competent enough to take up a certain post may fail in these tests and lose their opportunity to appear for the interview, which is usually followed by these tests. To express yourself as the perfect candidate and to make the recruiter think that you are genuinely determined to get this job role, your test answers should show the amount of time you have spent in preparing for it. A poor score may ruin this impression that you are trying to create on your prospective employer.

The students were very co-operative and enthusiastic to learn. We would like to thank the Placement Department and the Management Team Methodist College of Engineering and Technology for giving us this opportunity.

METHODIST COLLEGE OF ENGG. & TECH.
-King Kothi Road, Hyderabad.

METHODIST

COLLEGE OF ENGINEERING & TECHNOLOGY

Accredited by NAAC with A+ and NBA

Estd : 2008

Affiliated to Osmania University & Approved by AICTE

5.1.3 - Capacity building and skills enhancement initiatives taken by the institution include the following

1. Soft skills, 2. Language and communication skills, 3. Life skills (Yoga, physical fitness, health and hygiene), 4. ICT/computing skills

2.LANGUAGE AND COMMUNICATION SKILLS

Success for students hinges on effective communication. Our English faculty from the H & S Department organized and led these sessions. The carrier guidance and communication skills of engineering students essentially consist of several core elements such as the fluency in English language, Visual Communication skills, English Lab, etc. that are part of the academic curriculum.

- The first year focuses on developing student's pronunciation, listening, speaking, reading, and writing abilities.
- Speaking English and developing one's personality are prioritized in the second year.

5.1.3 - Capacity building and skills enhancement initiatives taken by the institution include the following

1. Soft skills, 2. Language and communication skills, 3. Life skills (Yoga, physical fitness, health and hygiene), 4. ICT/computing skills

3.LIFE SKILLS

YOGA

At MCET, we teach students life skills like yoga as part of the curriculum to help them develop traits like self-worth, sociability, and tolerance as well as the necessary skills to be free to choose what they want to do and who they want to become.

Our school has a yoga instructor named Ms. Ms.BhaghyaShali Tayde who leads and instructs our students as they perform yoga poses.

PHYSICAL FITNESS

As a part of our academic curriculum, our institution places equal focus on students' physical fitness. To support their overall wellbeing and good health, we offer facilities like a gym and allow them to enjoy indoor and outdoor games.

Our dedicated Physical Director Mr.M.Ilias Shameem keeps an eye on these operations.

HEALTH (ABOUT MEDICAL CELL)

Our college places a strong emphasis on the health and wellbeing of both students and employees, and as a result, a dedicated medical cell has been set up on campus.

Students and staff have access to a qualified MBBS doctor , Dr.Rayancha Siri Mehera,on campus for consultations during set hours, as well as a facility for routine check-ups.

HYGIENE (HOUSEKEEPING, CLEANLINESS, CAMPUS MAINTENANCE)

The college places a high priority on the impeccable upkeep of the surroundings and is quite picky about how clean the campus is. We work diligently to keep the campus lush with vegetation and picturesque in order to provide a nice and clean environment for the employees and students. The housekeeping staff regularly sanitizes all of our buildings, classrooms, and laboratories. In every building and block, there is a dispenser for hand sanitizers. In the context of 75 years of independence “Swathanthra Bharatha Vajrotsavalu” College conducted SWACHH BHARAT. Around 70 students participated in the college.

NATIONAL SERVICE SCHEME 2021-22**

Name of the Event: Swachh Methodist

Date 12.8.2022

Venue: Methodist college of Engineering and technology Campus

Summary report

In the context of the 75 years of India's Independence "Swathantra Bharatha Vajrotsavalu" NSS Cell conducted "Swachh Bharat - Swachh MCET" program in the college campus on 11/8/2022 in collaboration with Department of Humanities and Science

The program begun with Principal himself taking the broom and cleaning the walk way towards the canteen, thereby setting an example that when he says swachh Methodist to the students he means it not only to the students but also to everyone associated with Methodist. It was then followed by other faculties also. This encouraged the students so much that they all came out in large numbers to make sure the campaign become successful. They also vowed that it was not just for one day but for their entire tenure in MCET that they will only focus upon maintaining a health and a fresh environment. Cleanliness is next to Godliness is what our students have really started believing upon. Since that day they make sure that their classrooms, the corridors the ground, the parking and the canteen remains neat. In this campaign more than 70 volunteers took part.

The screenshot shows a Zoom meeting interface. The main window displays a presentation slide titled "THREE DAYS WORK SHOP ON CODING SKILLS" for "DAY - II SESSION II/II". The presenter is "Dr K Vinuthna Reddy", an Associate Professor in the Department of CSE at K J Somaiya University, Hyderabad. The slide also includes a QR code and a link to the workshop. Below the slide, the Zoom chat bar shows the name "vinuthna". At the bottom, the participant list includes four users: "CV" (VULLI J), "CS" (SUSHMITHA G), "RP" (Resource Per...), and "M".

Dynamic Programming

Dynamic Programming is a general algorithm design technique for solving problems defined by or formulated as recurrences with overlapping sub instances.

Main idea:

- set up a recurrence relating a solution to a larger instance to solutions of some smaller instances
- solve smaller instances once
- record solutions in a table
- extract solution to the initial instance from that table

As per the notification from the Google Developers about the Google Cloud Career Practitioner Campaign, the Cloud & DevOps team lead Dakshita Paithara had to nominate someone from our college or the club to be the facilitator for the campaign, and she selected Omer Fauzan of the Cloud & DevOps team. He filled out the facilitator form on 14th October and received the official mail that he was chosen

as the facilitator on 21st October. All the facilitators from different colleges were trained for 3 weeks under the guidance of Google developers.

And as per the instructions only 100 people were allowed to register for the campaign, for which the applications opened from 4th November to 10th November. From our college 108 people applied from which 98 got selected and others got rejected due to incorrect details. The selected 98 members were sent the access codes on the 14th of November. 81 students redeemed their access codes and got enrolled in the campaign. All the applicants were in touch with the team via WhatsApp group and were notified of all the updates via email.

On 16th November, we kickstarted the campaign with all 98 members receiving emails regarding the session. During this first session the lead Maaz Mohiuddin discussed what the cloud is, the way it is impacting the businesses, which are the top cloud providers, how it has changed the computing and scalability of businesses, where and why the cloud is used. Later, it was continued by the facilitator Omer Fauzan, discussing different roles in cloud like cloud engineer, cloud architect, he also discussed about certifications, gave the tour of google cloud platform. He then talked about what this campaign is all about, its agenda, how it will benefit them and then all the attendees were demonstrated how to redeem their access codes, and get enrolled in the campaign, he shared the course syllabus and discussed best practices to make the most of the session. Finally, the event was wrapped up with a quiz.

On 29th November, session 2 of the campaign was hosted in the Python lab, D block, which was the first offline event of the club. The event was successful with 79 students attending the session, wherein Maaz Mohiuddin first gave a quick refresher on cloud computing, and the characteristics of cloud computing and then the Cloud & DevOps team started with Google Cloud. They discussed IaaS, PaaS, and SaaS, Virtual machines, cloud functions, and different storage types. Introduction to Compute Engine, Containers, Kubernetes, serverless computing, identity, and access management were also given. Then an interactive quiz was held by Maaz Mohiuddin in which 45 members participated and the top 3 winners were given a prize as a token of appreciation. Finally, the session concluded with a Q & A session, and the team guided the students who were not able to redeem their access codes.

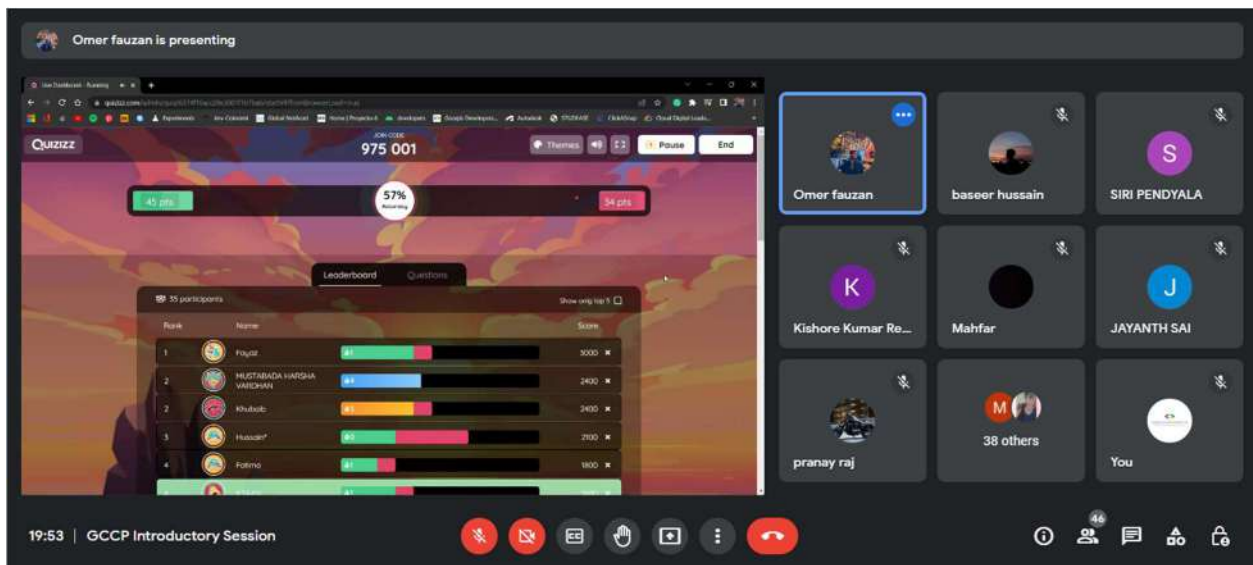

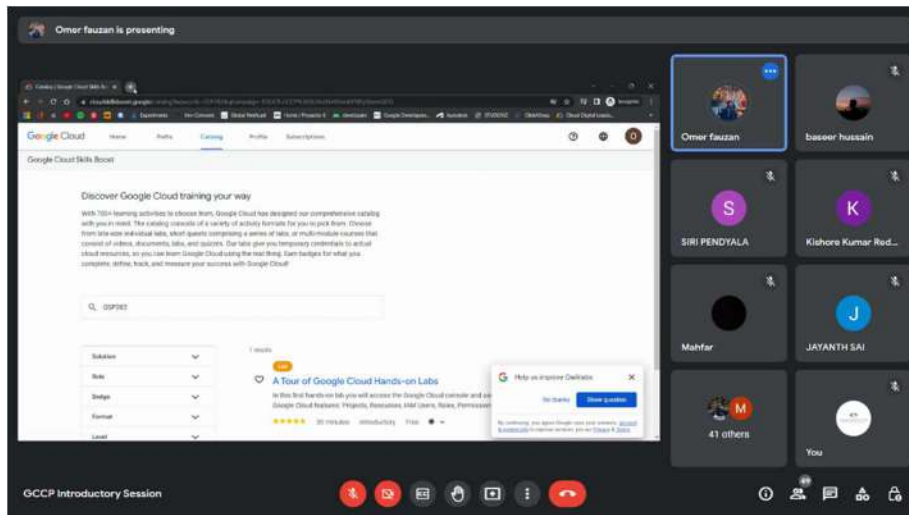

The third session was conducted online on 9th December. This session went longer than expected as the Cloud & DevOps lead, Dakshita Paithara walked through the first 4 courses from the Cloud Engineer Learning Path. Omer Fauzan and Mohammed Khubaib continued the session and completed two labs from these courses. This session was hands-on which allowed the learners to do simultaneously along with the speaker. Getting started with cloud marketplace, VPC networking, storage in the cloud, containers in the cloud, automating, and deployment of infrastructure using terraform were a few of the many topics discussed during this session. The session ended with the lead, Maaz discussing about the projects which will be done during the end of the campaign if a college fulfills all the requirements. He discussed the procedure of those projects, how it will help in the final year projects and so.

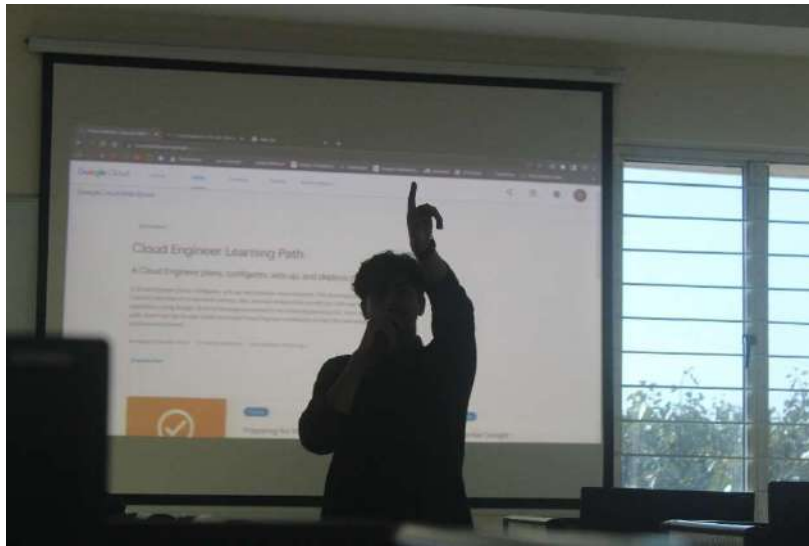

Session 4 was conducted in the seminar hall, D block on 14th December, started by the lead Dakshita who encouraged students to participate in events, suggested that they should take advantage of this campaign and reminded them of the campaign's deadline, and discussed different tiers and the rewards we get if we complete the requirements by the deadline. The session was then continued by Mohammed Khubaib, who demonstrated how to do the quest: creating and managing cloud resources. Another quest, performing foundational tasks in Google Cloud was taken up by Omer Fauzan. Students got an idea on how to perform the quests and navigate through the Google Cloud platform.

To conclude, this campaign was a great start for students to learn about cloud computing and have a hands-on experience with the Google Cloud Platform. We received a great response from the juniors, they

are actively participating in the events and are following the course. The facilitator, Omer Fauzan, and the entire team of Cloud & DevOps handled the sessions brilliantly and they made sure to answer all the queries whether both online or in person. All the sessions conducted really build enthusiasm among the students, we plan to conduct many such events in the future, to expose students to newer opportunities and tech stack.

ABOUT GOOGLE DEVELOPER STUDENT CLUBS

Google Developer Student Clubs are university-based community groups for students interested in Google developer technologies. Students from all undergraduate or graduate programs with interest in growing as a developer are welcome. By joining a GDSC, students expand their knowledge in a peer-to-peer learning environment and build solutions for local businesses and communities. The GDSC program is a grassroots channel through which Google develops skills for employability. GDSC activities target university students and others including faculty members who want to learn development skills & work to solve real-life problems.

GDSC opts to shape student developers for a better future. It is open to any student, ranging from novice developers who are just starting, to advanced developers who want to further their skills. It is intended to be a space for students to learn and collaborate as they solve problems.

GOOGLE DEVELOPER STUDENT CLUBS MOTTO

Connect

Meet students interested in developer technologies at your university. All are welcome, including those with diverse backgrounds and different majors.

Learn

Learn about a range of technical topics and gain new skills through hands-on workshops, events, talks, and project-building activities - both online and in person.

Grow

Apply new learnings to build great solutions for local problems. Advance your skills, career, and network. Give back to your community by helping others learn, too.

BENEFITS OF GDSC

In today's fast-growing world, technology is changing every second. It is almost impossible to stay upgraded about the technical advancements coping with the university curriculum. This is where GDSC can come to the rescue. GDSC aims to bridge the gap between theoretical and practical knowledge for student developers. It opts to provide students with the resources, opportunities and, experience necessary to be industry ready, all while still pursuing their degrees.

Below listed are the benefits developers will be getting by joining a GDSC:

- This club helps students to grow as developers.
- It gives them access to Google technology and platforms at no cost. The cost of a good online course is hefty and not everyone can afford it. So, by joining a GDSC, students get access to newer technology free of cost.
- Any student cannot be a good developer if they cannot solve real-world problems. GDSC aims to solve real-world problems using the knowledge being shared in the sessions. The entire GDSC team aims to build prototypes and bring solutions to local as well as global problems (GDSC Solution Challenge).
- Through in-person and virtual meet-ups, university students are empowered to learn together and use technology for the betterment of society.
- Students also develop their public speaking skills and leadership skills by participating in the sessions.
- Google Developer Students Club not only focuses on students of the Computer Science and Engineering branch but also on students of other branches.

In a nutshell, Google Developer Students Club focuses on bringing the best out of students who are always eager to learn something new and make them ready for today's industry. We, as engineers, have a responsibility toward the development of society. Being a member of GDSC, one gets the guidance to fulfil their dreams of a better tomorrow.

Google Developer Student Clubs Lead

Google Developer Student Club Leads are passionate leaders at their universities who are dedicated to helping their peers learn and connect. These Leads may be pursuing various undergraduate or graduate university degrees, but have good foundational knowledge of software development concepts.

Google collaborates with Leads and supports them as they start and grow their on-campus communities.

What does a lead do?

- Start a club:

Work with their university to start a student club. Select a core team and faculty advisor to support.

- Host workshops:

Grow student knowledge on developer products and platforms through hands-on workshops and events.

- Build projects:

Identify local partners to work with and lead project building activities

 Google Developer Student Clubs

Dear Amima,

Congratulations! We are thrilled to inform you that you have been selected as a Google Developer Student Club Lead for your campus!

You are joining an amazing community of student leads who will be representing hundreds of colleges and universities across the globe.

You were selected because you are a leader who believes that technology can do extraordinary things for the world. You have taken on the responsibility to help students grow as developers and empower these students to impact their communities with technology. Through this experience you will not only be leaving a legacy of impact but also growing as an individual and contributing in a meaningful way to the greater developer ecosystem.

What do you need to do next?

Please complete [this form](#) ASAP to confirm that you wish to become a GDSC Lead. Please note that *not* completing the Confirmation Form within 7 days means that you are deciding not to become a GDSC Lead for the 2021-2022 year.

Receiving your confirmation form will allow us to move forward with welcoming you into our student developer community.

Further instructions about becoming a GDSC Lead will follow soon.

We look forward to hearing from you via the [Confirmation Form](#).

Thanks again for your interest and congratulations!

Best wishes,
Google Developer Student Clubs team

Bringing together professional communities

Congratulations and Welcome Onboard!

Hi there!

Hope all is well with you and your loved ones!

Congratulations on being selected from the many applications we received this year, for the [Google Developer Student Clubs program](#)! The Developer Relations team at Google are pleased to welcome you onboard!!

Are you curious to know what the rest of the year will look like? Do you look forward to meeting with your co-leads and the DevRel team at Google? Do you have questions about the program and would like us to answer them?

If the answer to all the questions above is **Yes**, we would like to invite you to a virtual **Welcome Event on 10th and 11th August between 6pm-8pm IST**.

Please make sure you RSVP to the [event link](#) by 9th August, to be able to join the event.

Additionally, please fill this short [form](#) acknowledging whether you can attend this event or not and share other details as required. The last date to fill this form is **15th August, 2021**.

Some tips as you join us for the event :

1. Please make sure you RSVP to the [event link](#) by 9th August, else you won't be able to join the event.
2. Have some snacks before the event, so you bring in loads of energy at the event.
3. Please [join us 10 minutes before](#) the event, so that we're able to have informal chats before we start the actual welcome note.
4. Join us through a laptop, for a better experience.
5. Feel free to take water and bio breaks as you need them.

For any queries, please reach out to us at "[gdsc-india-connect@google.com](#)"

We look forward to hosting you for the welcome event!! See you soon!

Faculty Advisor

A faculty advisor guides students to empower and build community and work on ideas, knowledge, skills, and technology. They act as a bridge between the college management and the student community. They help in organising and collaborating for events on and off campus with ease.

For the Google Developer Students Club at Methodist College of Engineering and Technology, from the esteemed members of the teaching faculty, **Mr T PRAVEEN KUMAR** was selected as the faculty advisor by the Computer Science and Engineering, Head of the Department, **Dr P Lavanya**.

Due to the strong zeal and enthusiasm of both the faculty and students to improve the student community, Google Developer Students Club was established for the first time at Methodist College of Engineering and Technology.

Under his leadership and guidance along with the support and cooperation of CSE HOD, GDSC MCET successfully organised 20+ events both in offline and online/virtual mode and impacted over 500+ students from not only Methodist College of Engineering and Technology but also from other local and international colleges.

Team Structure and Selection

The various team domains were as follows:

- Public Relations Team (roles include social media management, creative design, photography, editorial team)
- Web Development
- Mobile Application Development
- ML & AI
- Cloud & DevOps

Over 50+ applications were received for joining the club as members, after scrutinizing and ranking the candidates according to their skills and interest, a team of 27 students was formed.

Each domain had a its own team lead, so overall there were 6 team leads forming the core team as follows:

- Cloud & DevOps Lead - Gursimar Singh (160718733114)
- Web Development Lead - Abdul Moid Khan Mohammed (160718733066)
- Public Relations Lead - Mohammed Waheedulla Bilal (169718736039)
- Mobile Development Lead - Preetham Kasturi (160718733016)
- ML & AI Lead - Pininti Sreekar Reddy (1601718733064)
- Competitive Programming Lead - Hemanth A (160718733027)

Looking Back at Events

Inaugural Event

Program name: GDSC MCET inaugural event.

Program date: 22nd September, 2021

Venue: Seminar Hall, D block, Methodist College of Engineering and Technology, Abids, Hyderabad.

An inaugural ceremony for the Google Developer Student Club at Methodist College of Engineering and Technology was held on Wednesday 22nd September, 2021 at 2:00pm in The Seminar Hall, D block, MCET.

The event was graced by the presence of distinguished faculty members and students. The program started with a power packed video presented by Mohammad Bilal, head of the club's PR team introducing the GDSC, followed by the welcome address delivered by him.

All the dignitaries present on the dais, along with other esteemed members of the faculty then proceeded with the lighting of the lamp. Dr P Lavanya, head of the CSE department spoke about the importance of such clubs and initiatives to upskill the

students. She addressed the audience with full enthusiasm holding all the students captive with her encouraging words.

Dr. Lakshmipati Rao, the Director of our college enlightened the students with the importance of peer to peer learning, participation in events, also advised them on coming forward sharing their ideas and problems they're facing and told them how teachers would help the students with whatever they require. Then the principal of our college, Dr. Prabhu G Benakop spoke about how collective efforts are required to make the club successful and how everyone should be responsible for carrying out their duties.

The primary aim behind the inaugural event was to make the students aware of the fact that the college has established a technical club for everyone to help them reach their goals, in finding the right approach, to give a platform for their ideas, and create a positive atmosphere in the student community.

After the inspiring speeches, Miss Amima Shifa, the lead of the GDSC introduced the club and gave a brief about its goals, team structure, roles and future prospects. And then the stage was taken up by the Team Lead of Mobile App Development, Mr Preetham Kasturi who shed a light on how apps play an important role in the developing world, how we can create those apps, followed by the agendas of the team and how it will be beneficial for students.

It was then proceeded by Mr Abdul Moid Khan Mohammad, the lead of the web development team talking about how websites are important no matter how small the field of work can be and how you can make your presence felt with websites and how they will help students in making websites that will meet the modern needs.

Followed by the lead of the AI & ML team, Mr Pininti Sreekar Reddy spoke about how AI has changed our lives and how students can build their careers in that particular field. Then, Mr Hemanth, the lead of the Competitive Programming team took over to explain what competitive programming is, where it is used and how his team will help the student community to get into the field.

Taking the event forward, the Cloud and DevOps team lead, Mr Gursimar Singh gave insights into what Cloud & DevOps actually means and what will be its value in upcoming years. And then the most awaited moment came when Miss Dakshita Paithara and Mr Mohammed Abdul Basith, members of the Cloud & DevOps team shared the wonderful news of 30 days of Google Cloud program where the students can expand their cloud domain knowledge and can gain rewards for doing so, they also spoke about what the program will be about and how it will take place. In the end, Miss Spoorthi, the head of the editorial section of the PR team, extended a vote of thanks and expressed her gratitude to all the college faculty and the student community for making this event a success.

GDSC Team with the CSE Department

30 Days of Google Cloud

Program facilitator : Dakshita Paithara

Program duration : October 27th 2021 - September 27th 2021

Venue : Online

What is the 30 Days of Google Cloud program?

30 Days of Google Cloud provides students with an opportunity to kickstart their learning on cloud technology using practice on Google Cloud - the tool that powers apps like Google Search, Gmail and YouTube.

One person from the campus was nominated to be a facilitator and lead this initiative in the college. Upon nomination and selection, the facilitator received training on how to lead these sessions and motivate more students to participate.

Description :

It all started by conducting an event offline and introducing the program within the campus to all the students in the first, second, and third years.

On October 27, 5 pm the registration link was out and many students got enrolled, they showed great interest and gained hands-on practice on the google cloud platform by using the tools provided by the cloud and completed the tracks.

These 30 days allowed the students to take a holistic approach to the introduction of the cloud world.

The final report of the program :

Metric	Value
No. of students enrolled from your campus	138
No. of wrong applications	15
No. of Skill Badge completions in Track 1	135
No. of Skill Badge completions in Track 2	109
No. of students eligible for Track 1 prizes	20
No. of students eligible for Track 2 prizes	16

Android Study Jams

Program facilitator : Preetham Kasturi

Program duration : November 29th 2021- January 10th 2022

Venue : One session offline and two sessions online

What are Android Study Jams?

Android Study Jams are a series of study groups, workshops or sessions organized and facilitated by a GDSC campus for their students to kick start their learning on Modern Android Application Development using Kotlin. Students learn how to develop their very own beautiful & functional Android apps.

Description :

The GDSC team shared the introductory video about these exciting study jams to grab the interest of the students and develop a curiosity for the program. The first session was held on December 20 2021, at 7 pm, after students registered through the RSVP link. They showed great interest and gained hands-on practice and understanding of Android application development by using the course curriculum provided by google and completing the pathways.

This period allowed the team to take a holistic approach in introducing the world of android application development using Kotlin, which helped students around the college from 1st to final years to learn android application development.

The list of student attendees all over the sessions:

METRIC(Number of Students)	VALUE
Joined the ASJ Group	257
ASJ Session-1	121
ASJ Session-2	124
ASJ Session-3	155

ML Study Jams

Program facilitator : P. Sreekar Reddy

Program dates : April 29th 2022, 2:15 PM (IST) , 3:15 PM (IST) , May 13th, 7:30PM (IST) , May 14, 7:30 PM (IST)

Venue : Online and offline 2 events each

What is ML Study Jam?

ML Study Jams provides students a roadmap of Machine learning with introducing them into the world of Data science. This gives them an overview of Python, Data visualization, Pandas and many more to help them kickstart their ML learning journey. This helped them to gain practical experience to work on real projects and a chance to get certified.

Description :

The first two sessions of ML Study Jams concentrated on Explore ML's beginner and intermediate tracks and contribution to CrowdSource. The third session of ML Study Jams helped students get started with the Kaggle Certification Courses. This was a study program going through Kaggle courses sequentially.

After completion of the courses students received Kaggle Machine Learning Certifications along with Explore ML certifications for their participation in the first two sessions.

Number of students attended : 110

Firestore for Web Campaigns

Program facilitator : Abdul Moid Khan Mohammed

Program dates : May 25th 2022, 7:00 PM (IST) and May 27th 2022, 7:00 PM (IST)

CLA: Programming Essentials in C

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student has studied the following skills:

- the universal concepts of computer programming,
- developer tools,
- the syntax and semantics of the C language, as well as data types in the C language,
- the means by which to resolve typical implementation problems,
- the writing of C programs using standard language infrastructure, regardless of the hardware or software platform,
- the fundamental programming techniques, customs and vocabulary, including the most common library functions and the usage of the preprocessor.

This Statement of Achievement is to acknowledge that during the course CLA: Programming Essentials in C, the student has been able to accomplish coding tasks related to the basics of programming, and understands the programming techniques, customs and vocabulary used in the C language.

By completing the course, the student is now ready to attempt the qualification CLA – C Programming Language Certified Associate Certification, from the C++ Institute.

CCNAV7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAV7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

VALUE ADDED COURSE

Name of the Program : Devnet Associate

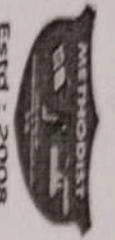

Syllabus:

1. Software Development and Design : Compare data formats (XML, JSON, and YAML) , Describe parsing of common data format (XML, JSON, and YAML) to Python data structures, Describe the concepts of test-driven development, Compare software development methods (agile, lean, and waterfall), Explain the benefits of organizing code into methods / functions, classes, and modules, Identify the advantages of common design patterns (MVC and Observer), Explain the advantages of version control, Utilize common version control operations with Git
2. Understanding and Using API: Construct a REST API request to accomplish a task given API documentation, Describe common usage patterns related to webhooks, Identify the constraints when consuming APIs, Explain common HTTP response codes associated with REST APIs, Troubleshoot a problem given the HTTP response code, request and API documentation, Identify the parts of an HTTP response (response code, headers, body), Utilize common API authentication mechanisms: basic, custom token, and API keys, Compare common API styles (REST, RPC, synchronous, and asynchronous), Construct a Python script that calls a REST API using the requests library
3. Cisco Platforms and Development
4. Application Development and Security: Describe benefits of edge computing Identify attributes of different application deployment models (private cloud, public cloud, hybrid cloud, and edge), Identify the attributes of these application deployment types, Virtual machines
5. Infrastructure and Automation: Compare controller-level to device-level management, components and benefits of CI/CD pipeline in infrastructure automation, Ansible, Puppet, Chef, and Cisco NSO, Ansible playbook (management packages, user management related to services, basic service configuration, and start/stop), Identify the workflow being automated by a bash script (such as file management, app install, user management, directory

navigation), Interpret the results of a RESTCONF or NETCONF query, Interpret basic YANG models, Interpret a unified diff, Describe the principles and benefits of a code review process, Interpret sequence diagram that includes API calls

6. Network Fundamentals: Describe the purpose and usage of MAC addresses and VLANs, Describe the purpose and usage of IP addresses, routes, subnet mask / prefix, and gateways, Describe the function of common networking components (such as switches, routers, firewalls, and load balancers), Interpret a basic network topology diagram with elements such as switches, routers, firewalls, load balancers, and port values, Describe the function of management, data, and control planes in a network device, Describe the functionality of these IP Services: DHCP, DNS, NAT, SNMP, NTP, Recognize common protocol port values (such as, SSH, Telnet, HTTP, HTTPS, and NETCONF), Identify cause of application connectivity issues (NAT problem, Transport Port blocked, proxy, and VPN), Explain the impacts of network constraints on applications

DevNet Associate

The student has successfully achieved student level credential for completing the DevNet Associate course, administered by the undersigned instructor. The student was able to proficiently:

- Use basic Python programming and Linux skills.
- Implement a development environment using DevNet resources.
- Use software development and design best practices.
- Create REST API requests over HTTPs to securely integrate services.
- Explain the processes and devices that support network connectivity.
- Use current technologies to deploy and secure applications and data in a cloud environment.
- Compare software testing and deployment methods in automation and simulation environments.
- Compare Cisco platforms used for collaboration, infrastructure management, and automation.

Course Outline

Learning Module	Course Syllabus
Part 1 – Basics Module 1 <i>Introduction to Python and Computer Programming</i>	- Python as a modern, universal and growing programming language; - Python versions and language development; - Brief review of tools and environments needed to start programming in Python.
Part 1 – Basics Module 2 <i>Data Types, Variables, Basic Input-Output Operations, Basic Operators</i>	- How to write and run the very first Python program; - Python literals; - Python operators and expressions; - Variables – naming and using; - Basic input/output operations in Python.
Part 1 – Basics Module 3 <i>Boolean Values, Conditional Execution, Loops, Lists and List Processing, Logic and Bitwise Operations</i>	- Boolean data type; - Relational operators in Python; - Decision making in Python: if, if-else, if-elif-else; - Repeating code execution using loops: while and for; - Logic and bitwise operations in Python; - Lists in Python: constructing, indexing, slicing and content manipulation; - How to sort a list using a bubble-sort algorithm; - Multidimensional lists and their applications.
Part 1 – Basics Module 4 <i>Functions, Tuples, Dictionaries, and Data Processing</i>	- Code structuring and the concept of functions; - Function invocation and returning a result from a function; - Name scopes and variable shadowing; - Tuples – purpose, constructing and using; - Dictionaries – purpose, constructing and using.

Course Outline

Learning Module	Course Syllabus
Part 2 – Intermediate Module 1 <i>Modules, Packages, and PIP</i>	- What is a module and why do we need it? - Importing and using modules; - Review of some useful Python modules; - What is a package and how does it differ from a module? - Constructing and using packages; - PIP – the Swiss army knife for package maintenance.
Part 2 – Intermediate Module 2 <i>Exceptions, Strings, String and List Methods</i>	- Characters, strings and coding standards; - Strings vs. lists – similarities and differences; - List methods; - String methods; - Python's way of handling runtime errors; - Controlling the flow of errors using try and except; - Hierarchy of exceptions.
Part 2 – Intermediate Module 3 <i>Object Oriented Programming in Python</i>	- Basic concepts of object programming; - From procedural to object approach – motivations and profits; - Classes, objects, properties and methods; - Inheritance and polymorphism; - Exception as an object.
Part 2 – Intermediate Module 4 <i>Miscellaneous</i>	- Generators, iterators and closures; - Working with filesystem, directory trees and files; - Selected Python Standard Library modules (os, date, datetime, calendar)

Statement of Achievement

PCAP: Programming Essentials in Python

The graduate of the *PCAP: Programming Essentials in Python* course, administered by the undersigned instructor, and provided by **Cisco Networking Academy®** in collaboration with **OpenEDG Python Institute**:

- knows the universal concepts of computer programming, including variables, data structures, algorithms, control flow, functions, and exceptions;
- can proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language;
- can use fundamental programming techniques, best practices, customs, and vocabulary, including the most common standard library functions in Python 3;
- can write Python programs using standard language infrastructure, and knows the means by which to resolve typical implementation problems;
- knows how to work with modules and packages, process text and binary files, and use generators, iterators, and closures;
- understands the fundamentals of object-oriented programming (OOP) and the way they are adopted in Python.
